

## IP66 Steel Enclosures

Supplied with a CNC machine formed polyurethane gasket for superior sealing and corner formed door ensures efficient weatherproofing.

- + Tested to IEC 62208
- + IP66, highest ingress protection & Tested as per IEC 60529
- + IK10, highest mechanical impact protection & Tested as per IEC 62262
- + Galvanised steel
- + Material thickness 1.2mm - 1.5mm
- + Corrosion resistance = 1000 hours salt spray test ASTM B117
- + Powder coated – RAL 7032
- + Injected polyurethane gasket
